## **Evendale Launches Website to Better Serve Residents, Business and Visitors**

*The new website, developed by Virtual Town Hall®, has an easy-to-use design and many enhanced features.*

**Portland, ME – July 13, 2005 –** Virtual Town Hall® - a Portland, Maine-based company that provides advanced web services to municipalities throughout the United States - today announced the successful launch of the Evendale, Ohio website. The site can be found at [www.evendaleohio.org](http://www.evendaleohio.org).

The site was created with a citizen-centric navigation scheme, which allows users to obtain information more quickly; ideally in just one click from the home page. The intuitive site design is user-friendly and provides special links for businesses, residents and visitors to the Cincinnati, Ohio area.

Jack Cameron, Administrative Assistant to the Mayor of Evendale feels that Virtual Town Hall's design of the new site has clear benefits. "Our new website is organized in a way that works well for residents, Village employees, local businesses and visitors alike. Because the site can be updated easily and quickly by Village employees, the information is current. People can find the information they need with the click of a mouse. This site will save the Village and its tax payers both time and money," said Cameron.

Residents, visitors and businesses can use the new website as a centralized resource for obtaining valuable information about Evendale. Some of the features that can be found on the website include:

- Calendar of local events, including Village council meetings and recreation department activities;
- Local news - and the ability to subscribe to an electronic newsletter;
- Listings of all Village services;
- Information on business and economic development;
- Directory and contact information for all Village staff members; and
- Ability to subscribe to an e-mail service that sends notices about new activities, events, or bulletins.

For more information about citizen-centric websites and how they benefit municipalities, please visit the Virtual Town Hall website at [www.virtualtownhall.net](http://www.virtualtownhall.net).
