Color Pencil Car Portrait Artist

MARLENE STEELE "STEELE ON WHEELS"

Music by Barbara Kock to benefit Patchwork Kids

Marlene's color pencil artwork is appreciated for its vibrancy and beautifully detailed subject matter. Her renderings of these beloved vehicles depict details of each storied past as they succumb to the nettles of nature. An air of nostalgia prevails in the portrait of each car, nestled in the glories of goldenrod or sunflowers. This series of portraits illuminates the long-lived American love affair with the car.

Her unique designs are greatly influenced by her passion for gardening, by nature and by the years she worked as an Interior Designer in Germany. The time and labor to produce one quilt is immense, such as the "Ocean Wave", which took approximately three years to complete.
