Welcome to the new format of our newsletter. I am interested in knowing how this works for you. As you will note, I have included two months so you can plan a bit further ahead. It is important to understand that you should **REGISTER AS SOON AS POSSIBLE**. This not only assures your position in the event; but also enables us to make adjustments as needed. Nothing bothers me more than to have a program cancelled due to lack of sign-up, only to have people say **they intended to register!**

I would encourage you also to make sure your e-mail address is correct in the membership files. As things change during the two month period, I will send out an e-mail announcement. If a program is cancelled or altered, I will make sure you are notified **IF** you are registered.
