Dear Neighbors and Friends:

As most of you know by now, the Ohio Power Siting Board (OPSB) has designated the route that runs through the Village as the final route. We are filing an appeal along with the City of Cincinnati, Hamilton County, N.O.P.E., and several suburban communities including Reading and Blue Ash asking the OPSB for a re-hearing. Should the OPSB affirm their decision, we can proceed to the Ohio Supreme Court. If the line is constructed, it will enter Evendale at the intersection of Glendale-Milford Rd. and Plainfield and travel westward along Glendale-Milford Rd., under the roadway, thereby reducing the likelihood of tree removal or private property acquisition, although these outcomes are still possible. Duke plans to bore a hole under the intersection of Glendale-Milford Rd and Reading to avoid closing the intersection. The bore will continue westward under the Mill Creek. The underground pipe will then turn southward through Evendale Commons and exit the Village behind Formica. The line will continue through the City of Reading and other communities where it will connect to another Duke pipeline in Cincinnati.

When I was going door to door during the past election, questions were raised about why we pass so many ordinances as an emergency. An emergency ordinance takes effect immediately while a regular ordinance requires three readings then takes effect in ninety days. Many of our ordinances are for purchases, hiring of personnel, or other opportunities that Evendale would lose out on if the Village had to wait a total of six months to act (i.e. price quotes are usually good for 30 to 60 days, quality employee candidates typically can’t or won’t wait six months to start a new job, etc.)

Starting April 1st, The Village of Evendale will be offering Evendale businesses an opportunity to post brief “now-hiring” ads in our Village Economic Development Webpage. For job posting instructions and guidelines, please visit our website at www.evendaleohio.org and click on the Economic Development Page; or, contact David Elmer at 513-956-2666 or David.Elmer@EvendaleOhio.org

Spring is right around the corner so keep your spirits up as we march through the winter months!

Sincerely,

Your Mayor

**SERVICE DEPARTMENT**

The Service Department would like to remind you that snow removal will take place, just like in past years. The main roads will get attention first. Then the secondary streets will be cleared. During snow events, please remember to move vehicles off the streets to allow plow crews to do the best possible job. Your help with this process will be appreciated. During a snow event, chipping of branches, special pickups and lending dump trucks to residents will not take place. Safe roads are the first priority.

Rumpke requests that leaf bags and trash cans be located in the same spot. Thank you for your help with this.

We have begun our seasonal hiring process. See details on page 4.
Importance of House Numbers During Emergency

House numbers are not only convenient for finding addresses but necessary for emergency responders to locate those in need. Minutes matter so be sure that fire, ambulance, and police personnel can quickly find your address.

Evendale Fire Department paramedics are equipped with many tools to shorten their arrival time. However, house numbers are imperative for a quick reference. The harder it is to find the numbers, the longer it will take emergency personnel to arrive at the scene.

Take a moment to drive around after the sun has gone down and try to find a particular address that is unknown to you. It is not very easy. Emergencies can happen to anyone, anywhere, at any time – including during a blizzard or in the middle of the night.

Evendale residents are encouraged to take a few moments to install house numbers or examine existing house numbers. According to the Live Safe Foundation, here are some of the basic requirements:

- Must be Arabic numerals. Fancy numbers or numbers that are spelled out may be aesthetically pleasing but are very difficult to read from the street.
- Need to be a minimum of four inches high and in a contrasting color to their immediate background. Brass or bronze numbers are difficult to see.
- Must be displayed on the front of the dwelling and visible from the street.
- If the dwelling is located more than 45 feet from the front lot line, the number should be displayed on a gate post, fence, mailbox, or another appropriate place that will make it visible from the street from all directions.
- Cannot be obstructed by shrubs, trees, decorations, etc.

Do your part to help yourself and have your house numbers displayed near the front door, under a light in a size and color that is easily visible from the street. And if you live in a rural area maintain your house number sign that is near your driveway. Don’t let it get covered with snow this winter.

If the numbers on your house are not visible or easy to read, it will take emergency personnel longer to reach you. Those extra minutes spent trying to locate a property can mean the difference between life and death, so take the time now to be sure your house numbers may be seen from the street.

Two worlds collide in this breathtaking and exquisite musical. Set in 1860’s Bangkok, The King and I tells the story of the unconventional and tempestuous relationship that develops between the King of Siam and a British schoolteacher whom the modernist King brings to Siam to teach his many wives and children. One of Rodgers & Hammerstein’s finest works.
Evendale’s Thor Lightning Prediction System will detect lighting within a 2½ mile radius of the Recreation Center. If detected, one 15-second blast will sound. When the threat has passed, three short 5-second blasts will sound.

If Thor detects lighting in our area, all outdoor activities should stop and participants should seek shelter indoors or in vehicles.

If you see lighting and Thor has not been activated, lighting is outside the 2½ mile perimeter.
